MATERIAL SAFETY DATA SHEET

Product Name: Succinylcholine Chloride Injection (Quelicin)

1. CHEMICAL PRODUCT AND COMPANY INFORMATION

| Manufacturer Name And Address | Hospira Inc.  
| Address | 275 North Field Drive  
| | Lake Forest, Illinois USA  
| | 60045  
| Emergency Telephone | CHEMTREC: North America: 800-424-9300;  
| | International 1-703-527-3887; Australia - 61-290372994; UK - 44-870-8200418  
| Hospira, Inc., Non-Emergency | 224-212-2000  
| Product Name | Succinylcholine Chloride Injection (Quelicin)  
| Synonyms | Suxamethonium Chloride  

2. COMPOSITION/INFORMATION ON INGREDIENTS

| Active Ingredient Name | Succinylcholine Chloride  
| Chemical Formula | C₁₄H₃₀Cl₂N₂O₄  
| Preparation | Non-hazardous ingredients include Water for Injection. Hazardous ingredients present at less than 1% may include sodium chloride; methylparaben and 0.02% propylparaben may also be added as preservatives in multi-dose solutions; sodium hydroxide and/or hydrochloric acid may be used to adjust the pH.

| Emergency Overview | Succinylcholine Chloride Injection (Quelicin) is a solution containing succinylcholine chloride, a depolarizing neuromuscular blocking agent used to relax muscles during anesthesia and other clinical procedures. In the workplace, this product should be considered potentially irritating to the eyes and respiratory tract. Based on clinical use, possible target organs include the muscular system, nervous system, cardiovascular system, and respiratory system. |
| Occupational Exposure Potential | Information on the absorption of this product via inhalation or skin contact is not available. Avoid liquid aerosol generation and skin contact. |
| Signs and Symptoms | None known following an occupational exposure. In clinical use, adverse reactions are primarily an extension of the pharmacological activity. Succinylcholine chloride can cause profound muscle relaxation, and may produce prolonged respiratory depression to the point of apnea. Infrequently, adverse reactions such as cardiac arrest, malignant hyperthermia, |
4. FIRST AID MEASURES

Eye contact  Remove from source of exposure. Flush with copious amounts of water. If irritation persists or signs of toxicity occur, seek medical attention. Provide symptomatic/supportive care as necessary.

Skin contact  Remove from source of exposure. Flush with copious amounts of water. If irritation persists or signs of toxicity occur, seek medical attention. Provide symptomatic/supportive care as necessary.

Inhalation  Remove from source of exposure. If signs of toxicity occur, seek medical attention. Provide symptomatic/supportive care as necessary.

Ingestion  Remove from source of exposure. If signs of toxicity occur, seek medical attention. Provide symptomatic/supportive care as necessary.

5. FIRE FIGHTING MEASURES

Flammability  None anticipated for this aqueous product.

Fire & Explosion Hazard  None anticipated for this aqueous product.

Extinguishing media  As with any fire, use extinguishing media appropriate for primary cause of fire.

Special Fire Fighting Procedures  No special provisions required beyond normal firefighting equipment such as flame and chemical resistant clothing and self contained breathing apparatus.

6. ACCIDENTAL RELEASE MEASURES

Spill Cleanup and Disposal  Isolate area around spill. Put on suitable protective clothing and equipment as specified by site spill procedures. Absorb the liquid with suitable material and clean affected area with soap and water. Dispose of spill materials according to the applicable federal, state, or local regulations.

7. HANDLING AND STORAGE

Handling  No special handling required for hazard control under conditions of normal product use.

Storage  No special storage required for hazard control. For product protection, follow storage recommendations noted on the product case label, the primary container label, or the product insert.
Product Name: Succinylcholine Chloride Injection (Quelicin)

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

### Exposure Guidelines

**Respiratory protection**

Respiratory protection is normally not needed during intended product use. However, if the generation of aerosols is likely, and engineering controls are not considered adequate to control potential airborne exposures, the use of an approved air-purifying respirator with a HEPA cartridge (N95 or equivalent) is recommended under conditions where airborne aerosol concentrations are not expected to be excessive. For uncontrolled release events, or if exposure levels are not known, provide respirators that offer a high protection factor such as a powered air purifying respirator or supplied air. A respiratory protection program that meets OSHA’s 29 CFR 1910.134 and ANSI Z88.2 requirements must be followed whenever workplace conditions require respirator use. Personnel who wear respirators should be fit tested and approved for respirator use as required.

**Skin protection**

If skin contact with the product formulation is likely, the use of latex or nitrile gloves is recommended.

**Eye protection**

Eye protection is normally not required during intended product use. However, if eye contact is likely to occur, the use of chemical safety goggles (as a minimum) is recommended.

**Engineering Controls**

Engineering controls are normally not needed during the normal use of this product.

9. PHYSICAL/CHEMICAL PROPERTIES

- **Appearance/Physical State**: Liquid
- **Color**: Clear, Colorless
- **Odor**: NA
- **Odor Threshold**: NA
- **pH**: 3.6 (3.0 to 4.5)
- **Melting point/Freezing point**: NA
- **Initial Boiling Point/Boiling Point Range**: NA
- **Evaporation Rate**: NA
- **Flammability (solid, gas)**: NA
- **Upper/Lower Flammability or Explosive Limits**: NA
- **Vapor Pressure**: NA
- **Vapor Density**: NA
- **Specific Gravity**: NA
- **Solubility**: NA
- **Partition coefficient: n-octanol/water**: NA
- **Auto-ignition temperature**: NA
- **Decomposition temperature**: NA
10. STABILITY AND REACTIVITY

Reactivity
Not determined

Chemical Stability
Stable under standard use and storage conditions.

Hazardous Reactions
Not determined

Conditions to avoid
Not determined

Incompatibilities
Not determined

Hazardous decomposition products
Not determined. During thermal decomposition, it may be possible to generate irritating vapors and/or toxic fumes of carbon oxides (COx), nitrogen oxides (NOx), and hydrogen chloride.

Hazardous Polymerization
Not anticipated to occur with this product.

11. TOXICOLOGICAL INFORMATION

Acute Toxicity
Not determined for the product formulation. Information for the ingredients is as follows:

<table>

Aspiration Hazard
None anticipated from normal handling of this product.

Dermal Irritation/Corrosion
None anticipated from normal handling of this product.

Ocular Irritation/Corrosion
None anticipated from normal handling of this product. Inadvertent contact of this product with eyes may produce irritation with redness and tearing.

Dermal or Respiratory Sensitization
None anticipated from normal handling of this product.

Reproductive Effects
Animal reproduction studies have not been conducted with succinylcholine chloride.

Mutagenicity
No information found.

Carcinogenicity
The carcinogenic potential of succinylcholine chloride has not been evaluated.

Target Organ Effects
Based on clinical use, possible target organs include the muscular system, nervous system, cardiovascular system, and respiratory system.
12. ECOLOGICAL INFORMATION

Aquatic Toxicity  Not determined for product
Persistence/Biodegradability  Not determined for product
Bioaccumulation  Not determined for product
Mobility in Soil  Not determined for product

13. DISPOSAL CONSIDERATIONS

Waste Disposal  All waste materials must be properly characterized. Further, disposal should be performed in accordance with the federal, state or local regulatory requirements.

Container Handling and Disposal  Dispose of container and unused contents in accordance with federal, state and local regulations.

14. TRANSPORTATION INFORMATION

ADR/ADG/ DOT STATUS:  Not regulated
IMDG STATUS:  Not regulated
ICAO/IATA STATUS:  Not regulated
Transport Comments:  None

RCRA Status  Not Listed

U.S. OSHA Classification  Target Organ Toxin Possible Irritant

GHS Classification  *In the EU, classification under GHS/CLP does not apply to certain substances and mixtures, such as medicinal products as defined in Directive 2001/83/EC, which are in the finished state, intended for the final user:

Hazard Class  Not Applicable
Product Name: Succinylcholine Chloride Injection (Quelicin)

Hazard Category
Not Applicable

Signal Word
Not Applicable

Symbol
Not Applicable

Prevention
P260 - Do not breathe dust/fume/gas/mist/vapors/spray.

Hazard Statement
Not Applicable

Response:
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists, get medical attention. Wash hands after handling.

Get medical attention if you feel unwell.

EU Classification*
*Medicinal products are exempt from the requirements of the EU Dangerous Preparations Directive. Information provided below is for the pure drug substance Succinylcholine Chloride.

Classification(s):
Not Applicable

Symbol:
Not Applicable

Indication of Danger:
Not Applicable

Risk Phrases:
Not Applicable

Safety Phrases:
S23 - Do not breathe vapor.
S24 - Avoid contact with skin.
S25 - Avoid contact with eyes.
S37/39 - Wear suitable gloves and eye/face protection.
